COMMERCIAL.

HONOLULU, OUTOBER 12, 1886.

The last quarter of each year is the resting season of the sugar mills, which is devoted to repairing and renovating the machinery for the hard work which commences about lanuary t, and continues on most plantations till September. As a consequence, the quantity of sugar offered for shipment during the hast quarter of the year is comparatively small, and the vessels in port load slowly.

The foreign arrivals since our last issue have been only two, the steamships Gaelle on the 5th, and Australia on the 8th, both from San Francisco. The former touched to land a few Chinese passengers, sailing the same day for Yokohama. The latter landed about 600 tons of freight, and left at 2 p. m., on Sanday for Sydney, for which port she had about 100 tons of through reight and between forty and fifty passengers.

There are now in port seven deep sea vessels, not including the Surprise, which is to enter the consting service.

The following streams as a marked by the taxarter.

The following circular was received by the Australia, from Messrs, Williams, Dimond & Co:

from Messes. Williams, Dimond & Co:

Sax Francisco, October 1st, 1888.

SUGAR—There has been no change in the prices of our local Refineries since the bluit.

Eastern and Fourney Markerts—An improvement has taken pince both in New York and London markets and prices of raws have advanced. On the 17th ult. the London Market, owing to the continued evidences of injury to the Beet crop in Germany by drouth, showed a sharp improvement and beets advanced to its for Sper cent test. Owing to this improvement in London, price of all grades advanced in New York i.e. per h. Sales of Caba Centrifugals 96 per cent test were easily made at 5%c. Indications pointed to a still further rise, especially for centrifugals, which were not pressed at the quotations. Since the above date prices have fluctuated in London according to the change in the weather, but a firm feeling continued until the 24th ult, when the market agained ruled dull and beets declined to its 754d and on the 28th ult. to 11s 154d. The New York market however did not a first follow this decline and prices remained steady at last quotations until yesterday.

Consumers show little disposition to bay, except to supply necessary requirements and prefer to use up their stocks and await further developments before making fresh purchases.

Bref Cror.—We quote from our latest mail advices

supply necessary requirements and prefer to use up their stocks and await further developments before making fresh purchases.

Beer Choy:—We quote from our latest mail advices as follows: New York Sept. 23d.—"M. Licht reports, that with very favorable weather during remainder of the season, the crop may reach 900,000 tons in Germany, and 2.475,000 tons in all Europe, against 2,000,921 tons last year—say 379,000 tons increase against which excess the visible supplies in Europe are now about 200,000 tons less than last year at this time, and the invisible supplies have been estimated at 130,000 tons less now than then." Our latest telegraphic advice of today from New York quote value Cuba Centrifugals 5½ c. for 96 per cent. test. Market dull and shows no sign of improvement. London, Beets 88 per cent test 11s ald. European and Foreign Markets steady. Crops promise fairly, estimates unchanged. Cuba drm, crop promises fairly. Louisiana crop small. Sales of Caba Centrifugals were made in New York on the 30th nit. (advised to-day) of 95 per cent. test at 5½c. and 30 per cent. test at 51 fec. This makes the Cuba basis acre for arrivals on that date 5.43½ for 98 per cent. test but sales could not be made to-day at over 5½c.

RICE—We quote price at 5½c., 60 days; demand light. Eighteen cars of Carolina in transit.

From the quarterly statistics prepared by the Collec-tor General, and published in the Advertiser, we give a

Gazette's Hilo Letter

EDITOR GAZETTE:-Last week the outlook from the water front would have suggested to an observer unusual activity in the harbor. Six vessels were at anchor on Saturday last, several coasting schooners, the Hilo steam packet Ivy Holmes, the yacht Brunhilde and the schooner Emma Claudina, making quite a fleet.

The brig Hazard, Goodman master, sailed for San Francisco on the 2d., taking a cargo of sugar from Papaikou mill and a 'ot of molasses from aupahochoe, and one passenger, Mr. Horace Greely, who has been recruiting here for several months past.

The schooner Emma Claudins, captain Matson, arrived on the 27th ult., seventeen days from San Francisco, with her usual cargo of hay, feed and general merchandise. The passenger list showed the names of Mr. and Mrs. Kennedy of Waiakea, Mr. Geo. Deacon, Mr. Muldoon and Mr. Charles Hitchcock, who returns from a short visit at the Const.

A boat's crew from the yacht experienced a spill on attempting to land at the wharf through the surf the other morning. The novel sight of a number of yachtmen padding around among the brakers created quite an excitement on the wharf for a few minutes. Fortunately there was no reresulting call for a coroner.

The Hon. S. G. Wilder has been in town for a few days, prospectively locating, it is said, places for a railroad terminus and wharf, and studying plans for a system of water works for the town. The latter, by the way, being an urgent necessity here where the main supply is from the ditches that supply bath and wash houses and receive thence the used water, there being no system of the sawarana whatever. Mr. Wilder visits the volcano sewerage whatever. Mr. Wilder visits the volcano before returning to Honolulu.

A peep into the building where Mr. Jules Tavernier is at work on his cyclorama of the crater of Kilanea shows that he has a vividly realistic paint-ing in progress. It will give to those who have never seen the crater a vivid idea of Madame Pele's " hot house" during its greatest action, and will recall to those who then saw it, something of the intense activity of the activity prior to the great earthquake of '68. A more exte escription will be in place after the painting is thrown open to the public.

ar Plantation finished planting on the 2nd inst. They have used several tons of the new fern fertilizer as a test on their latter planting, as have the Wainaku, Paukna, Pepekeo, and Hakalau plantations. If it proves as effective in practical results as the practical results as the chamical analysis would seem to indicate it will be a "big thing" both for the planters and for those interested in the machine which reduces the fern stumps into a form suitable for application as a fartilizer.

as a fertilizer. A cabinet making fraternity seems to have been started in town recently, news from which is heard almost every week. Mikado. Hilo, Oct. 7th, 1886.

A Beginning of the End.

EDITOR GAZETTE:-I see by the papers that the majority of the Legislators now proposes to raise our taxes. Surely a portion of our law makers is not showing patriotism and statesmanship, in fa-voring this bill. They certainly know that the country is on the verge of bankruptcy; the sugar industry, taken as a whole, does not pay expenses, and from present appearances may pay less, and some plantations have to close up; and now comes a majority of our law makers to the front and

helps to close them up.

The country has looked on in silent contempt while they were appropriating millions. Many appropriations have been simple and uncalled for. The people considered them as coming from a lot of men who cared but, little for the welfare of the country: that there would be no money to pay them, and that they would not count against the tax

payers.

The rigid economy that his Majesty advised and was so cordially endorsed by his chief Minister, proves to be all bosh. Now, is there a remedy? Self protection is the first law of nature. All human rights and powers belong to the people; if any of these rights have been delegated and not carried out fully, the people have the right to take back the delegated powers.

I would suggest that the people enroll themselves,

form clubs and organize for the protection of their

rights and property.

I think the minority of our Legislators has done well. Their votes stand recorded on the right side.

The steamer this morning brought the news of the proposition to raise the taxes, and the people are wild over it. A petition is being signed by every tax payer outside of Government employees, against raising the taxes. W. Y. Honner. Lahaina, Oct. 9, 1886.

The Volcano

Fron Hon. S. G. Wilder, who last week visited the crater of Kilanea, we learn that the activity of the fires is steadily on the increase. A stream of molten lava thirty feet in width was flowing in one part of the crater, while several smaller fires can be seen in other places. What is most singular is that the sunken wells, where Halemannan and south lake were, are being raised up bodily, by some powerful agency below the surface, and it now looks as if there will be a grand explosion there before long.

Presentation of a Flag

At 11 o'clock on Sunday, a short time before the sailing of the Australia for Sydney, it was rumored that His Majesty would be present and present Captain Webber with a beautiful silk Hawaiian flag for his steamship in honor of the Australia being the first Hawaiian steamer leaving this port for Sydney. Soon after 11 a. m. several of our notables began to arrive, which strengthened the rumor, and at 12 o'clock His Majesty appeared, accompanied by the Princess Liliuokaiani, the Governor of Oahn, Col. Iaokea, and immediately proceeded on board the steamer where he was reemor or Oalin, Col. lankes, and immediately pro-ceeded on board the steamer where he was re-ceived by Capt. Webber, and conducted to the Captain's cabin. After a short conversation His Majesty, followed by the balance of the party pro-ceeded to the upper deck where His Majesty in a short address presented the flag to Capt. Webber, who immediately had it bent on the flag halliards who immediately had it bent on the hag halliards to the main mast and hoisted to the mast head. Immediately after this Capt. Webber called for three cheers for the Hawaiian flag which was heartily responded to by those on board, and also three cheers for His Majesty which also received the same recognition. The royal party then adjourned to the Captain's cabin where a short time was specific friendly introduced. was spent in friendly interchange of sentiment, when His Majesty, after wishing the Captain bon royage took his departure, accompanied by Col. Iauksa. His Ex. R. J. Creighton and Hon, Paul Neuman were also in attendance.

A Reply

EDITOR GAZETTE-Dear Sir: With its characteristic propensity for polluting other people's clean clothes with its dirty hands whenever opportunity offers, the Advertiser's Kohala correspondent states in its latest effort, that "the little plot of land east of the school house at Ainakea has been barred since the new school teacher went into office. It is presumed that the act was prompted by charity, as that is what is preached by the

It may not be unfitting to so far take notice of this one instance out of many such that have appeared in the Advertiser, as to say that the bars in question were put there during the school vaca-tion, by the native tenant of the adjoining lot, for his own benefit, without the knowledge of the owner thereof, who afterward decided however, to keep them there, and bring the land under new conditions.

That a piece of private property has been open to the free use of the public for many years, is no reason why it should continue to always remain so. Land is continually rising in value and being appropriated to new uses, under new conditions, and the Advertiser's correspondent ought to hide his addled head for very shame.

Kohala, Oct. 8, 1886. ONE WHO KNOWS. Houolulu Library Association.

The annual meeting and election of officers of the Library and Reading Hoom Association was held last Friday evening, October 7th, in the Li-brary building. Vice President Scott, owing to the absence of Mr. S. B. Dole, President, occupied the chair. The Treasurer, Mr. A. L. Smith, read his annual report, showing receipts from all sources of \$1,579.25, and expenditures of \$1,503.10, leaving a small balance on hand.

Dr. Rodgers read the report of the Hall and Library Committees, having charge of the internal administration of the institution. The report showed that 1,230 volumes had been added during the year; the total number of volumes in the Li-brary to date, being 5,320. A printed catalogue had been prepared and was now ready for use by the patrons. The report also showed that the Li-brary had been frequented by an increased number of visitors, the larger partion of whom had availed themselves of the privilege of using the books of the institution. Altogether the report showed a marked improvement in the management of the details of the Library which were thoroughly

appreciated by the visitors.

The Association then proceeded to the election of officers for the ensuing year. Mr. S. B. Dole, who had already served three terms as President, declined re-election, Messrs J. B. Castle and W. Foster also declined re-election as trustees. The following officers were then elected to serve for the ensuing term: President, A. J. Cartwright Sr.; Vice President, M. M. Scott; Secretary, H. A. Parmelee; Treasurer, A. L. Smith; Board of Trastees, S. B. Dole, C. M. Hyde, H. Waterhouse, H. C. Meyers, W. Hill, C. P. Rodgers, W. Atwater, J. F. Brown and W. R. Castle.

Thanks were returned by Mr. Scott for the privilege accorded the public schools. The President elect stated that he hoped shortly the Library would be free to all in every sense of the word. Dr. Hyde reminded members that the Library was free to strangers, and urged them to induce

visitors to avail themselves of its privileges. After a very satisfactory meeting a motion to adjourn was carried. The appointment of the stand-ing committees was not fully completed but will be announced later.

New Appointments.

The Advertiser states that the King has appointed Hon. Curtis P. Iaukea, Governor of the Island of Oahu, vice His Excellency John O. Dominis resigned; Hon. R. Hoapili Baker, Governor of the Island of Maui vice His Excellency John O. Dom-inis, resigned; His Excellency Robt. J. Creighton, Secretary of War and of the Navy; His Excellency John O. Dominis, Lieutenant General and Commander-in-chief of the forces of the Kingdom; Hon Curtis P. Iaukea, Adjutant General to the Hon Curtis P. Iaukea, Adjutant General to the forces of the Kingdom, vice Major C. T. Gulick, resigned; Captain Sam, Nowlein, Quartermaster General to the forces of the Kingdom; Major John D. Holt, Secretary and Aid-de-Camp to the Lieutenant General; Hon, Curtis P. Iaukea, as His Majesty's Private Secretary; Adjutant John T. Baker, Major of the King's Guards; Jas. Kahalewai, Adjutant of the King's Guards; First Lieutenant R. Parker Waipa, Captain of the King's Guards; Second Inducata Sam, I. Maikai, First Lieutenant of the King's Guards; and Frank W. J. Peary, Second Inducatant of the King's Guards; Feary, Second Licutement of the King's Guards; Col. James H. Boyd to be His Mejesty's Vice-Chamberlain, and Brigade Major A. B Intelligence officer of the Forces of the Kingdom.

C. O. BERGER,

HONOLULU.

General Agent for Hawaiian Islands.

Two Richmonds In the Field.

Hawaiian credit must be "gilt-edged," to use the parlayer of the stock exchange, for we learn that London and San Francisco are both bidding for the placing of the bonds under the new Loan Act. The parties representing the London capital will take the bonds at 98 and charge a commission of five per cent. The San Francisco party will take the bonds at par and charge a like commission of five per cent. Upon the face of the offers it would seem the part of wisdom to take the San Francisco bid; but may there not be something under the surface that would throw the judgment in favor of the London offer,?

We have had one transaction with the San Francisco party and ought not to care for another. We took for five hundred thousand dollars in bonds, payable in United States gold coin, a like sum in silver dollars worth, intrinsically, at the time of the transaction, eighty-two cents each, and at this writing worth but seventy-three cents each. What they may be worth when the bonds mature is what no man can tell. In short, the transaction netted the San Francisco party a bag-atelle of eighteen per cent. But this was not all, for the San Francisco party foisted upon the King and country an administration as reckless of the interests of Hawaii as so many buccaneers would be. The insistance of the San Francisco party for economy at this juneture of Hawaiian affairs is hypocritical, for if any party, more than another, is to blame for the rash and negligent management of public finance in this Kingdom to-day, it is the aforesaid San Francisco clique and its hirelings. The domination in our politics of the San Francisco party has been worse than a plague, and if the difference between ninety-eight and par will rid us of such domination we must urge the ac-ceptance of the offer of the English capitalists and consider the riddance cheap at the cost.

Beach vs Hanlan.

There is some dispute in town about Beach and Hanlan; the matter lies in a nutshell. The London Despatch says: Hanlan's challenge, so long delayed, has not brought the result desired by the Canadian. Beach declines to row, except on the Parramatta, so that if the ex-champion desires to regain his laurels he will have to journey to the antipodes. The Australian has acted rightly in the matter, and Hanlan decidedly wrong. Last spring the Candian issued a challenge to row Beach on the Thames, and this the latter at once accepted on his arrival in England. Nothing further was heard from Hanlan. Beach waited day after day, week after week, and month after month, and although he had notified bisintention of returning to Australia at the end of September, Hanlan made no further move. No deposit was made, no articles signed, and now, just on the eve of Beach's departure, Hanlan has challenged him to row a three mile race in America between the 1st and 10th of October.

A Proper Recognition.

It is pleasant to learn from the last issue of O Luso Hamiliano, that Mr. Antonio de Sonza Cana-varro, Portuguese Commissioner and Consul in the Hawaiian Islands, has just been favored with the gift by his Government, of the Commander-ship of the Royal Order of Christ. This is a pleasing recognition by those who know, of the really great and good [service rendered by Mr-Capavarro in his arduous task of defending his countrymen and yet helping the planters, who have all learned to appreciate his contract writing and impartiality.

Death of N. F. Sayre.

Advices have been received of the death of Mr. Nathan F. Sayre, who for many years was a resident and store-keeper of Makawao, Maui. He died quite suddenly on Sunday morning, Sept. 26th, leaving as far as we can ascertain, no relatives on these islands. His property, which consists of a bank account with Bishop & Co., and roal estate on Maui and in this city, has been devised by will to several religious societies in this city and on Maui, his estate probably amounting to some fifteen thousand dollars.

Supreme Cnurt-Oct. Term.

MR. JUSTICE PRESTON, PRESIDING. Yesterday, the Foreign Jury was called, and the case of the King vs. E. H. Dimond was taken up, Mr. A. Rosu, assisted by Mesars. Ashford and Ashford, appeared for the Crown; Mr. S. R. Dole for the defence. After impaneling a jury, the indictment was read, charging the defendant with mannet was read as the defendant with mannet was read as the defendant with mannet was read as the defendant with mannet was read, charging the defendant with mannet was read, charging the defendant with mannet was read as the defendant was read as the defendant wi slaughter in the second degree, in the fatal shooting of one Le Yang on or about July 30. Yesterday was occupied in taking the testimony of the witnesses. After being absent about ten minutes the jury gave a unanimous verdict of acquittal.

Is a Reliable Remedy for Liver Complaint and

digestion AN INVALUABLE FAMILY MEDICINE. Thousands of Testimoniais prove its merit. BENSON, SMITH & CO.,

Agent for Hawalian Launds. DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL and ONLY GENUINE:

Advice to Invalids.—"If you wish to obtain quiet re-freshing sleep, free from headache, relief from pain and anguish, to caim and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discover ed by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of UHLGRODANE, and which is admitted by the profession to be the most wenderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Cougha

Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhora, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all stracks of Epilepsy, Hysteria, Palphation, and Sparms. CHLORODYNN is the only palliative in Neuralgia, Rhenmatism, Gout, Cancer, Touthache, Meningitis, &c.

CHI.ORODYAM is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitia, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simia, Janhary 5, 1880. To J. T. Davenport, Esq., El, Great Russell Street, Bloomsbury, London, Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justify esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sory to say, are now relegated to the native bazars and, judging from their sale, we fancy their solourn there will be but evanescent. We could multiply instances ad infallum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhea and Dysentery Spasma, Cramps, Neuralgia, the Vomiting of Pregnancy and as a general sedative, that have occured unner our personal observation during many years. In Cholerane Diarrhea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used my other form of this medicin-than Collis Browne's from a firm Conviction that the substitution of any other form of this medicin-than Collis Browne's from a firm Conviction that the substitution of any other than Collis Browne's is a deliberate Bersach of Farm on The Part Of The Chemist To prescenter And Partient Part Of The Chemist To prescenter And Partient Encoded to the Parties To Prescenter And Parties Encoded to the Viceroy's Chemists.

CAUTION—Vice-Chancellor Sir W. Page Wood

CAUTION.-Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, and onbiedly, the Inventor of Chlorodyne; that the story of the defendent Freeman was deliberately untrue, which, he restricted to say, had been aworn to .- See "The Times,"

Sold in bottles at 1s.155d., 2s.2d., 4s.0d., and 11s. cach. None is gennine without the words "Dr. J. Col. lis Browne's Chiorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.-Beware of Piracy and Initiations Sole Manufacture-J. T. DAVENPORT, 35, Great Bussell Street, Bloomsbury, London. 1118 cm
